Sept 2003

OR Society Annual Conference: 2-3 Sept, Keele Conference Park

UMTC 2003: 1-3 Sept, Birmingham. Undergraduate Mathematics Teaching Conference - see page 63.

ALT-C 2003 - communities in practice: 8-10 Sept, Sheffield. Will include a refereed research strand on e-learning and the use of learning technology, and presentation of the LTSN Generic Centre e-Tutor of the Year Award...

Cambridge Seminar on External Examining: Quality and Practice: 11-12 Sept, Cambridge. This two-day seminar is a self-contained introduction to external examining. It comprises a comprehensive opportunity to plan, reflect on and reconsider the technical, practical and interpersonal aspects of external examining as a component of the professional practice of Higher Education.

Induction Course for new lecturers: 18-19 Sept, Birmingham. A two-day induction course for lecturers new to teaching mathematics in UKHE, organised by the Maths, Stats & OR Network.

The Decidable and the Undecidable in Mathematics Education: 19-25 Sep, Czech Republic, from the Mathematics Education into the 21st Century Project. Papers are invited on all innovative aspects of mathematics education.

Oct 2003

ICTMT6: 10-13 Oct, Volos, Greece. 6th International Conference on Technology in Mathematics Education, in parallel with the Panhellenic Conference on the Didactics of Mathematics and Informatics in Education.

ICTCM 2003: 30 Oct-2 Nov, Chicago. 16th Annual International conference on Technology in Collegiate Mathematics.

Nov 2003

LTSN Maths, Stats & OR Network workshop: Sharing of Projects Practice: 12 Nov, York. Much of teaching and learning in mathematics is provided using traditional lectures and assessment is examination dominated but an area that has great potential in learning both mathematical skills and graduate skills are substantial project activities. Such project activities are also highly rated by graduates and their employers. See page 61 for more information.

AMATYC 2003: 13-16 Nov, Salt Lake City. Annual Conference of the American Mathematical Association of Two-Year Colleges.

Remarkable Delta 03: 23-27 Nov, Queenstown, New Zealand Conference on mathematics education specifically targeting the tertiary level.

Dec 2003

ATCM 2003: 15-19 Dec, Taiwan. The 8th Asian Technology Conference in Mathematics. The conference will cover a broad range of topics on the relevance of technology in mathematical research and teaching.

Jan 2004

Joint Mathematics Meetings: 7-10 Jan, Phoenix, Arizona. Meetings will include at least two sessions dealing with technology in mathematics education.

Mar 2004

ORS Simulation Conference: 23-24 Mar, Birmingham. The first simulation workshop in March 2002 brought together practitioners and academics from the UK and from overseas. It provided an opportunity to exchange ideas on the current and future state-of-the-art in simulation modelling, with a particular focus on discrete-event simulation. Following the success of this event, a second workshop is to be held in March 2004.

Apr 2004

BMC 2004: 5-8 Apr, Belfast. The 56th British Mathematical Colloquium and the 17th Annual Meeting of the Irish Mathematical Society will be held jointly

BAMC 2004 - British Applied Mathematics Colloquium: 19-22 Apr, University of East Anglia.

Jun 2004

4ecm: 27 June-2 July, Stockholm. 4th European Congress of Mathematics, organized by the Royal Institute of Technology in collaboration with Stockholm University, under the auspices of European Mathematical Society.

Jul 2004

ICME-10: 4-11 July, Copenhagen. 10th International Conference on Mathematical Education.

PME 28: 14-18 July, Bergen. 28th International Conference of the International Group for the Psychology of Mathematics Education.

2005

BCME 2005: 30 Mar-2 Apr, venue to be announced. British Colloquium of Mathematics Education

Joint BMC and BAMC: 4-7 Apr, Liverpool. The format of this meeting will be different from the first joint meeting, in that lectures on pure and applied mathematics will take place at the same time rather than on adjacent days.
