
Diary

June 2002

Maths Support for non-specialist students in science and engineering workshop: 18 June, Bell College, Hamilton. A one-day workshop that will provide materials of immediate use to those who are supporting students in science and engineering departments. Participants will be given copies of useful publications such as a Facts and Formulae leaflet, the Algebra Refresher book, a report on Curriculum 2000, and the handbook on Good Practice in the Provision of Maths Support Centres. Details from info@mathstore.ac.uk

STATISTICA Neural Networks Training Course: 19-20 June, Bedford. A two day course from StatSoft Ltd - see ad on p55 for more information.

22nd International Symposium on Forecasting: 23-26 June, Trinity College, Dublin

EASEIT-Eng Evaluator Training Day: 24 June, Birmingham - see ad on p6

ILTAC 2002: 26-28 June, Edinburgh. 3rd Annual Conference of the Institute for Learning and Teaching

International Conference on Trends in Mathematics Education: 26-28 June, Beirut, Lebanon

MathML international conference: 28-30 June, Chicago

ICTM2: 1-6 July, Crete. International Conference on the Teaching of Mathematics at the undergraduate level

July 2002

Bridging Mathematics Network Conference: 4 July, Australia. Primarily concerned with the transition to tertiary education, especially for students without the usually assumed background in mathematics, with presentations from practitioners and researchers.

ICOTS 6: 7-12 July, South Africa. 6th International Conference on Teaching Statistics

Mathematics Education Research Group of Australasia: 7-10 July, Auckland NZ. MERGA is a research oriented conference, across the whole of mathematics education, focussing mainly on primary/elementary, secondary and teacher education.

ISSAC 2002: 7-10 July, Lille. International Symposium on Symbolic and Algebraic Computation. Topics include remote access to mathematical software over the Internet; encoding of mathematical expressions; interoperability between software that create/transform/display mathematical expressions; Web-based mathematics education.

Further details and all Web addresses at http://mathstore.gla.ac.uk/events_diary.asp

IFORS 2002: 8-12 July, Edinburgh. International Federation of Operational Research Societies.

Visit-Me-2002: 10-13 July, Vienna. International Symposium on Integrating Technology into Mathematics Education, combining the International Derive & TI-89/92 Conference and the ACDCA Summer Academy.

IMECT3: 11-13 July, Cambridge. International Conference on Mathematics Enrichment with Communication Technology.

Authoring Online Interactive Materials in Mathematics: 16-19 July, online. An online workshop from the Mathematics Association of America.

Maple Summer Workshops: 28-30 July, Ontario, Canada

August 2002

ICM-2002 Satellite Conference: 12-17 August, Lhasa, Tibet. Mathematics Education, with a special focus in the University.

ICM-2002: 20-28 August, Beijing, China. International Congress of Mathematicians.

ERME 2002 Summer School: 23-27 August, Klagenfurt, Austria. An opportunity to develop a friendly and co-operative research style in maths education.

COMPSTAT: 24-28 August, Berlin. Conference on Computational Statistics.

SAGSET 4: 26-30 August, Edinburgh. Annual conference providing a meeting place for academics and practitioners interested in all aspects of the use of simulations and games in training and education.

ISMOR 2002: 27-30 August, Oxford. International Symposium on Military Operations Research

Autumn 2002

UMTC: 2-5 Sept, Birmingham. Undergraduate Mathematics Teaching Conference, followed by an **Induction Course for New Lecturers** on 5-6 Sept. More details from info@mathstore.ac.uk

RSS 2002: 3-6 Sept, Plymouth

ALT-C 2002: 9-11 Sept, Sunderland. Annual Conference of the Association of Learning Technology.

ICTCM 2002: 31 Oct-3 Nov, Florida. 15th International Conference on Technology in Collegiate Mathematics
