
LTSN Maths Stats & OR Network - the team

Advisory Committee

Chair: Professor Robert Curnow (RSS)

Professor Ken Houston (HoDoMS)
University of Ulster at Jordanstown

Professor Nigel Steele (IMA)
Coventry University

Professor Robert Fildes (ORS)
University of Lancaster

Mr Antony Maciocia (EMS)
University of Edinburgh

Professor Chris Robson (LMS)
University of Leeds

Professor David Baume
The Open University

Professor Tina Overton (LTSN Physical Sciences)
University of Hull

Director
John Blake

Deputy Director and Statistics Coordinator
Neville Davies

Assistant Director

Pam Bishop

Mathematics Coordinator

Joe Kyle

Glasgow Coordinator

Adrian Bowman

Research Fellows

Chris Sangwin

Colin James

Ewan Crawford

Warren Gilchrist

Consultants

Cliff Beevers (Assessment)

Peter Holmes (Statistics Education)

Tony Croft (Applicable Mathematics)

External Evaluators

Johnston Anderson (Midlands and SW)

Kit Dodson (North of England)

Ian Martin (Wales)

Sally McClean (Northern Ireland)

John O'Connor (Scotland)

John Silvester (London and SE)

Diary

Mathwise User Group Workshop: UMIST, 22 November with speakers including D Quinney - Introduction to Mathwise, Enid Pinch - Vectors & Multivariable Calculus, Dave Pountney - Sports Maths & Modelling, D Quinney - Future of Mathwise, Hands-on session, and Plenary.

FDTL 4 Briefing Day: Strawberry Bank Hotel (near Birmingham Airport) 28 November. To help people find out more on the £8m FDTL bidding process, and to give an opportunity for colleagues to discuss collaborative bids, we will host a briefing meeting. This will be a shared meeting with Physics and Astronomy, since there are some issues which are common and can be dealt with by Alison Holmes from the FDTL national coordinating team and Richard Blackwell from the LTSN Generic Centre. There will be no charge, for the nominated person from each department attending the meeting, and travelling costs will be subsidised. Accommodation will also be provided free of charge to

Further details and all Web addresses can be found via <http://ltsn.mathstore.ac.uk>

those who wish to stay overnight and continue discussions the next morning.

Applicable Mathematics Workshop: Birmingham, 10 December, on the provision of maths support for non-specialist students in science and engineering departments. Participants will be given copies of useful publications such as a Facts and Formulae leaflet, the Algebra Refresher book, a report on Curriculum 2000, and a handbook on Good Practice in the Provision of Mathematics Support Centres, and there will be an opportunity for input to the new MathsTEAM project.

BMA/BAMC: University of Warwick, 7-12 Apr 2002. This joint BMC and BAMC meeting, with lectures and plenaries to suit both pure and applied maths interests, will include an evening discussion on the school/university interface, and a minisymposium on recent developments in learning and teaching mathematics.
